DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Maruyama et al as set forth in the previous Office Action mailed out on 5/1/07.

Response to Arguments

3. Applicant's arguments filed 11/1/07 have been fully considered but they are not persuasive.
4. Regarding the Applicant's argument in that the cited reference of Maruyama et al is improper because it fails to disclose the claimed feature of "receiving collective selection of the still image data sets and/or digital video sets in a predetermined recording unit", Examiner disagrees. It is noted that, as indicated in the previous Office Action, such a feature is present in Maruyama et al. Because, the cited reference of Maruyama et al discloses the capability of reproducing the video and the image data using the user generated program chain information designating specific cell reproduction orders. Applicant's attention is directed to Maruyama et al's Figure 25, component 1025, and Maruyama et al's claim 1, lines 21-22.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
